

## Avalanche Photodiodes – Silicon and InGaAs APDs

### Applications

- Laser range finder
- Free space communication
- Terminal guidance
- Spectrophotometers
- Fluorescence detection
- Scanning video imager
- Particle sizing
- Luminometer

### Features and Benefits

- Low noise
- High gain
- High quantum efficiency
- Built-in TE-cooler option
- Various packaging and optical input options
- Application specific designs

### Product Description

These rear entry "reach-through" silicon APDs offer the best compromise in terms of cost and performance for applications requiring high speed and low noise photon detection from 400 nm up to 1100 nm. They feature low noise, high quantum efficiency and high gain while maintaining reasonably low operating voltage. The active area varies from 0.5 mm to 3 mm to accommodate a large variety of Defense and Security applications.

The "S" series of the C30902 family of APDs can be used in either their normal linear mode ( $V_R < V_{BR}$ ) or as photon counter in the Geiger mode ( $V_R > V_{BR}$ ). Precise temperature control can be achieved with a thermo electric cooler which can be used to improve noise and responsivity or to maintain constant responsivity over a wide range of ambient temperature. High quantum efficiency can be achieved from 1100 nm to 1700 nm with our InGaAs Avalanche Photodiodes. They were designed to maintain high gain, high quantum efficiency and high bandwidth even with their large area of up to 200  $\mu\text{m}$ . The short distance between window and the active area allows easy interface with optical system.

### Technical Specification

#### Avalanche Photodiodes – Silicon APDs

Unit	Active Diameter	Capaci-	Rise/Fall Time	Dark Current	Breakdown Voltage min	Breakdown Voltage max	Tempera-	Typical Gain	Responsivity 830 nm	Responsivity 900 nm	Responsivity 1060 nm	NEP	Package
	mm	pF	ns	nA	V	V	Coeficient		A/W	A/W	A/W	fW/ $\sqrt{\text{Hz}}$	
C30817EH	0.8	2	2	50	300	475	2.2	120	75	9	1	TO-5	
C30872EH	3	10	2	100	325	500	2.2	60	37	9	30	TO-8	
C30884E	0.8	4	1	100	190	290	1.1	100	63	8	13	TO-5	
C30902BH	0.5	1.6	0.5	15	185	265	0.7	150	77	60	3	Ball lens TO-18
